

Recommended : watch earlier video – How to use PhantomJS (Headless Browser)

Today we will learn :

1. What is PhantomJS
2. How Selenium interacts with PhantomJS

helpful tips
interview section..
Pros and Cons of PhantomJS

1

What is PhantomJS

PhantomJS is an open source Headless Browser.

(It is a web browser without graphical user interface)

It is a full web stack – that means it can do everything that you can do with Chrome, Safari etc.

It is build over WebKit – an open source web browser engine
